As summarized in René's and my talks, the following questions remain open for discussion. *Italic* text in parentheses are our suggestions as basis for discussion.

- Frequency of competition (*two months*)
- Categories of competition (*current ones + extension on demand*)
- Example-sets for competition (*all available*)
- Timeouts for competition (*depends on category, 1 minute*)
- Scoring for competition (*1 point per correct answer*)
- Presenting competition results + reporting (*similar to before*)
- Output of verified competition (*Coq/Isabelle script*)
- Structure of unique IDs (\mathbb{N})
- New XML-format (*extension of Rainbow format*)
- Versions of TPDB (*every competition*)
- Responsibility to accept new examples (*steering committee*)
- Provided data for experiments for papers (*.csv + proof-details*)
